What are others saying about David Orton?

It is our privilege to endorse the ministry of David & Jenny Orton.

Our relationship with them is a long one, having pastored and trained them in their youth during the early 1970s as members of Christian Faith Centre and in the Centre's Ministry Training School in Sydney.

In a continuing close relationship with them we have been excited to see their contribution to the Body of Christ with their anointed prophetic insight.

They have also grasped very clearly the challenge of Jesus' prayer in John 17 where He prayed to the Father that all believers might be one in same level of unity as He and the Father.

The desire to see the Church fully expressing Christ to a needy world in the way God designed it to be is the driving motivation behind their ministry.

David is called to bring a trumpet message to the Body of Christ at large in both his teaching/preaching ministry and his writings.

David & Jenny are people of great integrity and it is our privilege to recommend them to the whole Body of Christ.

David Orton not only speaks as a prophet of truth, but as The Truth Himself, he communicates from the Father heart of God. David's teaching is powerful...I whole-heartedly recommend him, especially to those in ministry who have a vision and hope for revival.

I am convinced God has given David a message that is needed for every part of the church in these days. There are messages for different issues faced by different churches and there are other messages that every church needs to hear. David loves the church and the ministry of the kingdom of God. He is asking some important questions about why we haven't broken through in the Western nations. The answers are those he has sought in the Word and in the presence of the living God.

I have much appreciated David as a true friend and a precious brother in the task of seeing the nation of Australia fully embrace its God given destiny in this generation.

Several years ago, a friend recommended David Orton's book, *Snakes in the Temple*. After reading it, I convened a conference with about sixty apostles, prophets, evangelists, pastors, and teachers, requiring them to read David's book and another in preparation for dialogue. It was a life-changing and ministry-changing week!

Since that time, I have been privileged to befriend David (as well as the author of the other book), and my life continues to be enriched by these men. In 2011 we sponsored David to come to us from Australia to share in an apostolic leadership venue.

David and I continue to enjoy our friendship and mutual labors for the reformation of the church and the emerging kingdom of God. The content of *Snakes in the Temple* is both liberating and envisioning. I unreservedly recommend it to all who haven't read it.
